

Plain and Simple

Our country is in trouble because we ignore the experience of our founders. They went through a bloody revolution against government regulation, and they went through a time when paper money lost all its value. These were terrible experiences they never wanted to revisit. They thought on this long and hard and left us four simple rules.

First: Non-intervention

Second: Free Trade

Third: Stable Currency

Fourth: Limited Government

It was good advice and, if we follow it today, it will restore our republic, fire up our economy, and re-establish the benefits of freedom to ourselves and our progeny to come.

It will not be easy, but nothing done right ever is. I call you to the pledge of our forefathers, that we guarantee freedom with our lives, our fortunes, and our sacred honor.
